Policy 3 – Land Site Number- Policy Number Cross Reference

Cross-Reference between Development Site options and the proposed Policy Neighbourhood Development Plan (NDP).

When we started the NDP process we asked for, and received, several offers of land that we added to a map of Iwerne Minster showing the location, and numbering them from 1 - 12. That map was used as the vehicle for asking for input from the regularity authorities that we had to contact and their submissions. There is therefore an audit trail between that originally numbered map and their submissions, which we do not want to lose.

Since then, we have not been able to progress with all of the sites offers that explains the gaps in numbers on the final site options map.

Now that we have drafted the NDP we have used the wording “Policies” to indicate and document the sites that are actually being offered. We list below a cross-reference table to facilitate the link between the two numbering systems.

Place name	Site Number	Policy Number
Trout Farm	1	3.1
Clayesmore Wood	2	3.2a
Miles Field	3	3.3
Old Bakery	4	3.4
Clayesmore - Devine House	5	3.2b
